Projects

Staayzy

staayzy.com

- Developed a full-stack platform enabling PG owners and rental property managers to list properties while allowing students to search, compare, and book rooms for their college stay.
- **Future Enhancements:** Integration of student-centric services such as mess subscriptions, laundry services, and rental vehicle booking to create a comprehensive living ecosystem.

HydraGo

- A machine that cures Palm Hyperhidrosis (Condition of excess sweat on palm) by passing mild electric current and disrupting sweat glands without causing any short/long-term harm to body. **Future Work-:** Personalized guidance via app on the basis of data analytics performed on the data gathered from user's machine usage and feedback.

Vakeel

perfectvakeel.com

- Built a full-stack legal-tech platform that connects users with verified lawyers, enabling seamless discovery and appointment booking.
- **Future Enhancements:** Integrate an AI-powered chatbot to analyze user case descriptions and recommend the most suitable lawyers based on expertise and context.
